[about me]

Hi ! I'm Clara, but you can call me eko0 !
I was born in March 2008 and I'm passionate
about UI/UX and graphic design. I like turning
ideas into visual experiences. I'm currently
learning 3D design with Blender to expand my
creative skills and bring more depth and emotion
to my work. My goal is to blend design,
storytelling, and technology to create experiences
that are both intuitive and inspiring.
